Project Number: 2018-1-PL01-KA201-050865

## THE DISSEMINATION STRATEGY

The project partnership has defined a shared Dissemination Strategy with the aim of making the deliverable produced and the results achieved by the Parsifal project accessible to the highest number of potential beneficiaries.

The process carried out involved various phases:

### 1.) Identification of the dissemination objectives.

The main identified dissemination objectives are:

- Inform the potential users about the project deliverables, make the project deliverables accessible and usable to the potential users that is: Secondary schools teachers, Secondary school directors, Secondary school students, Trainers, Policy makers in the field of education
- Public bodies responsible for Educational policies
- Enhance the visibility of the project
- Maximise the impact of the project in the short, medium and long term

### 2) Definition of the contents for dissemination.

The identified contents of the project to be disseminated are:

- The Parsifal project portal and all the deliverables addressed to secondary schools teachers and students
- The database of Legends, the Essays and the Map of travels that were produced as Intellectual Outputs
- Methodological and management strategies for the achievement of the project objectives
- Results achieved at both transnational and local level which highlight the level of convergence between the results reached and the objectives originally foreseen.
- Unforeseen results that are considered points of strength

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project Number: 2018-1-PL01-KA201-050865

### 3) Identification of dissemination actions

In addition to the contractual obligations, each project partner had to carry out at least 1 dissemination activity during each month of the project. These actions were registered by the partner on the specific form which was published on project website.

The full list and related information of the dissemination activities carried out can be easily consulted at <https://parsifal.pixel-online.org/dissemination.php>.

The Dissemination section was also important for best practices sharing as all partners are able to access the information about the dissemination events organized by the others and draw ideas from them. The project's partners had the possibility to learn from each other in order to improve their dissemination strategies.

### 4) Identification of the target groups of the dissemination activities.

These groups were identified and can be sub-divided into the following categories:

- Secondary schools teachers
- Secondary school directors
- Secondary school students
- Trainers
- Public bodies responsible for Educational policies
- Policy makers in the field of education

### 5) Production of relevant tools for the dissemination

In order to ensure a homogeneous and consistent communication of the project, CZKiU (PL) as Project Applicant and Pixel (IT), in cooperation with some selected partners created:

- A visual identity for the project, i.e. a project logo published on each page of the Internet project website, Portal, each article (both on paper and on-line), as well as on each document produced (brochures; posters; press communication etc.).
- Communication material for speeches and presentations on the project, to be used by all partners during conferences; meetings; events in the relevant field. These include: power point project presentations; project brochures translated in all partners' languages, etc.
- A Dissemination form which was completed by each partner in the project. The Dissemination form is available for download from the project website (see Download section: <https://parsifal.pixel-online.org/documents.php>). Each partner completed several Dissemination forms describing in detail

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project Number: 2018-1-PL01-KA201-050865

the dissemination activities completed (e.g. Participation in a conference in which the project was presented; sending of brochures; articles; organization of events etc.).

- A Dissemination section on the project's web site. This section, accessible to all, contains a grid collecting all dissemination activities carried out by both the project's promoter and partners. Please see "Dissemination" section on the project web site at:

<https://parsifal.pixel-online.org/dissemination.php>.

#### 6) Identification of the actions to be put into act for the dissemination.

The identified actions for dissemination were:

- Continual updates on the Parsifal website with information on the development of the activities and the results in progress.
- Creation and distribution of brochures and posters containing information on the project activities and the results achieved.
- Creation of a Facebook page (<https://www.facebook.com/ProjectParsifal>)
- Contacts with the press, the radio and the television with the aim of informing them of the projects, the activities, and on the results achieved
- Participation of the applicant or the project partners in conferences, meetings and trade fairs in the educational sector.
- Organization of formal and informal meetings with potential beneficiaries of the projects results. This may include: participation in other projects meetings where this project can be presented; organization of ad hoc meetings to present the project to a group of potential beneficiaries; organization of one to one meetings with public authorities and politicians involved in the field of education, etc.
- Organisation of Multiplier Events

Information on the specific dissemination activities carried out by each partner can be found under the specific link on the project web site at: <https://parsifal.pixel-online.org/dissemination.php>

#### 7) Evaluation

For each dissemination activity, an evaluation of the number of subjects reached in the target group framework was done. This can be found on the dissemination form completed by each partner regarding each dissemination event carried out. The finished forms are available on the project web site at

<https://parsifal.pixel-online.org/dissemination.php>

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project Number: 2018-1-PL01-KA201-050865

## MANAGEMENT OF THE DISSEMINATION ACTIVITY

All the Parsifal project partners were required to complete at least an average of 1 dissemination activity every month. Then they had to collect and present the information about them.

For this purpose, Pixel has created an on-line Dissemination Form to assemble and describe in details the dissemination activities.

Pixel

Name of the person involved in the event \*

From (format DD-MM-YYYY)

To (format DD-MM-YYYY)

select ...

Description of Dissemination Event

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project Number: 2018-1-PL01-KA201-050865

Target group (specify the audience)

- ☐ Association ☐ Enterprises ☐ Experts ☐ General Public ☐ Public Bodies  
☐ Researchers ☐ Schools ☐ Students ☐ Teachers ☐ Training Agencies  
☐ Universities

Number of people reached by event

Held in (specify the City)

Country

Outcomes, Results and Evaluation (follow-up actions to be taken etc.)

Upload

The Dissemination Form provides the following information about each dissemination event carried out by each partner: date and place of the event, type of the event (e.g. mailing, conference, meeting, informal contact etc), a description of the event, the target group of the event, number of participants in the event, the results of the specific dissemination activity carried out (e.g. further requests of material, request of project portal password, joining of the project etc.)

All partners completed a form for each dissemination event that takes place.

The project partners then upload on the project web site all the completed dissemination forms together with the activity reports on a tri-monthly basis. They can be found in the 'Dissemination' section of the Parsifal portal (<https://parsifal.pixel-online.org/dissemination.php>).

In this way, the project partners can see the dissemination activities concluded by all project partners and can be inspired to carry out their own events.

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

## CONTENTS OF THE DISSEMINATION ACTIVITY

Every project partner carried out a number of dissemination activities in order to make the project in-progress available for a wider audience.

The specific contents which were disseminated, by the project partnership, at European level are:

- The Parsifal Project portal and all the resources and information it contains
- The Parsifal Intellectual Outputs
- Innovative aspects of the project.

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project Number: 2018-1-PL01-KA201-050865

- Relevance of the project at European level and the added value the European partnership provides for the project.
- Information about the project objectives, activities and in progress and expected results.
- Information about the Erasmus+ Programme and about the opportunities provided at European level for educational purposes.
- Methodological and management strategies for the achievement of the project objectives
- Results achieved at both transnational and local level which highlight the level of convergence between the results reached and the objectives originally expected.
- Unanticipated results that are considered points of strength.

## TIMING

The dissemination activity started from the first month of the project and continued throughout the project period.

## TARGET GROUP COVERAGE

The target groups for the dissemination activities were:

- **Teachers** (32 events organized in Italy, 7 events organized in Lithuania, 4 events organized in Portugal, 2 events organized in Ireland, 11 events organized in Romania, 4 events organized in Greece, 2 events organized in Belgium, 5 events organized in Spain, 1 events organized in United Kingdom, 1 events organized in Germany, 1 events organized in Finland, 2 events organized in France, 3 events organized in Poland, 11 events organized in Bulgaria, 1 events organized in Estonia, 1 events organized in Netherlands, 1 events organized in Cyprus, 1 events organized in Sweden)
- **Schools** (4 events organized in Italy, 10 events organized in Lithuania, 2 events organized in Portugal, 12 events organized in Romania, 2 events organized in Greece, 3 events organized in Spain, 2 events organized in United Kingdom, 1 events organized in Germany, 1 events organized in France, 2 events organized in Poland, 12 events organized in Bulgaria)

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Project Number: 2018-1-PL01-KA201-050865

- **Universities** (18 events organized in Italy, 6 events organized in Lithuania, 10 events organized in Romania, 5 events organized in Spain, 3 events organized in United Kingdom, 1 events organized in Germany, 18 events organized in Poland, 13 events organized in Bulgaria)
- **Experts** (23 events organized in Italy, 33 events organized in Lithuania, 4 events organized in Portugal, 38 events organized in Romania, 2 events organized in Greece, 2 events organized in Belgium, 11 events organized in Spain, 3 events organized in United Kingdom, 2 events organized in Germany, 1 events organized in Finland, 2 events organized in France, 18 events organized in Poland, 17 events organized in Bulgaria, 1 events organized in Estonia, 1 events organized in Netherlands, 1 events organized in Austria)
- **Training Agencies** (10 events organized in Italy, 6 events organized in Lithuania, 3 events organized in Romania, 19 events organized in Poland, 8 events organized in Bulgaria)
- **Students** (38 events organized in Italy, 36 events organized in Lithuania, 4 events organized in Portugal, 23 events organized in Romania, 3 events organized in Greece, 2 events organized in Belgium, 8 events organized in Spain, 1 events organized in United Kingdom, 1 events organized in Germany, 1 events organized in Finland, 1 events organized in France, 9 events organized in Poland, 18 events organized in Bulgaria, 1 events organized in Estonia, 1 events organized in Austria)
- **Association** (17 events organized in Italy, 7 events organized in Lithuania, 4 events organized in Portugal, 12 events organized in Romania, 7 events organized in Spain, 2 events organized in United Kingdom, 1 events organized in Germany, 1 events organized in France, 15 events organized in Bulgaria)
- **Public Bodies** (14 events organized in Italy, 3 events organized in Lithuania, 1 events organized in Romania, 2 events organized in Spain, 4 events organized in Poland, 10 events organized in Bulgaria)
- **Researchers** (22 events organized in Italy, 5 events organized in Lithuania, 2 events organized in Portugal, 12 events organized in Romania, 1 events organized in Greece, 2 events organized in Spain, 2 events organized in United Kingdom, 1 events organized in Germany, 1 events organized in Finland, 1 events organized in France, 1 events organized in Poland, 11 events organized in Bulgaria, 1 events organized in Estonia, 1 events organized in Austria, 1 events organized in Cyprus, 1 events organized in Sweden)
- **General Public** (4 events organized in Italy, 1 events organized in Lithuania, 1 events organized in Portugal, 3 events organized in Romania, 1 events organized in Belgium, 1 events organized in Spain, 2 events organized in Poland, 6 events organized in Bulgaria)

- **Enterprises** (14 events organized in Italy, 3 events organized in Lithuania, 1 events organized in Romania, 2 events organized in Spain, 4 events organized in Poland, 10 events organized in Bulgaria)

## GEOGRAPHICAL COVERAGE

The project partnership organised 296 dissemination events.

A total number of 1 dissemination events were organized in Austria. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in Belgium. They were: Transnational Meetings.

A total number of 36 dissemination events were organized in Bulgaria. They were: Conference or Fair, National Meeting, Article on website, Newsletters, Training Seminar, Transnational Meetings, Informative Mailing.

A total number of 1 dissemination events were organized in Cyprus. They were: Transnational Meetings.

A total number of 1 dissemination events were organized in Estonia. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in Finland. They were: Transnational Meetings.

A total number of 3 dissemination events were organized in France. They were: Training Seminar, Transnational Meetings.

A total number of 3 dissemination events were organized in Germany. They were: Transnational Meetings.

A total number of 6 dissemination events were organized in Greece. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in Ireland. They were: Transnational Meetings.

A total number of 68 dissemination events were organized in Italy. They were: Conference or Fair, National Meeting, Article on website, Newsletters, Training Seminar, Transnational Meetings, Other, Informative Mailing.

A total number of 1 dissemination events were organized in Malta. They were: Transnational Meetings.

A total number of 41 dissemination events were organized in Lithuania. They were: Conference or Fair, National Meeting, Article on website, Transnational Meetings, Other, Informative Mailing.

A total number of 1 dissemination events were organized in Israel. They were: Other.

## DISSEMINATION ACTIVITIES CARRIED OUT

The following is a list of dissemination activities and tools used by the project partners:

### **Conferences and Fairs**

Partner	Activity description	Date of the event	Target Groups	Country	Number of people
CZKiU	During the conference held for head teachers of local schools in the Department of Education, Ms Bartosińska presented and summarised the parsifal project. She presented the website, IOs and discussed ways in which students were engaged in project work. Apart from teachers there were Head and deputies of the department.	11/09/2020	Enterprises, Experts	Poland	18
CZKiU	In February, our school took part in the Mini-Fair organized in our work center in Sosnowiec. We represented our school by presenting the professions on which our future students can learn. Youth from 8th grade of primary schools from our city came to the Mini Fair. It was also a good opportunity to advertise Projects implemented at school. The interested persons were acquainted with the purpose and assumptions of the PARSIFAL project implemented in our school. The goals and assumptions as well as the subject of the project were presented. Information was provided on which countries participate in the project and what tasks they have to perform. It was said about the end result that the participation in the project is to bring: - online legends collection in English and native language - essay / analysis of the similarities in Polish, Italian, Romanian, Bulgarian and Lithuanian legends People who came to our stand showed great interest in these activities, asked many questions to which the students participating in the project were happy to answer.	09/02/2020	Experts, Training Agencies, Universities	Poland	60
CZKiU	Dissemination of the project output during the School Open House During the annual event The School Open House the young participants of the Parsifal project presented the intellectual output of the project to the visitors - junior students and their parents. They paid	16/10/2020	Training Agencies, Universities	Poland	100

Zinev Art Technologies	On 13 Nov ZAT held a second multiplier event to present the results achieved under the Parsifal project. The event started with an introduction to the project context, aims, target groups and main results. Then presentation of the legends and essays was made. During the presentation, the logic and structure behind the legends and essays were shown and examples with legends and essays from each partner country were given. After that, the project portal was demonstrated, its features were shown, focusing on the didactical importance of the content. One of the teachers from the school Mrs. Todorka Pavlova, who worked closely with ZAT's team during the project implementation demonstrated to her colleagues how she worked with Parsifal project content and portal with her students. One the one hand students were involved in describing legends specific for the region, where the school is situated, following the example of the legends in the portal. They also visited the places where the legends happened. After that working in teams, they had to discover similarities in main characters, places, moral and ethical challenges and achievements with other European legends, uploaded in the portal. We also asked teachers to give us their feedback after the closing of the event. At the end of the event, we also showed how Parsifal map works and how the app is planned to work. Actual testing of the app was envisaged for teachers to do together with their students.	13/11/2020	Experts, Students	Bulgaria	14
Zinev Art Technologies	On 04 Sept ZAT held a multiplier event aimed at presenting the results achieved under the Parsifal project. The event started with an introduction to the project context, aims, target groups and main results. Then presentation of the legends and essays was made. This presentation was made by Dr. Miglena Molhova. During her presentation Dr. Molhova showed the logic and structure behind the legends and essays and gave examples with legends and essays from each partner country. After that, the project portal was demonstrated, its features were shown, focusing on the didactical importance of the content. Dr. Molhova also shared examples of how teachers worked with their students in other countries (shared experiences during partnership meetings – searching for common features of legends between countries, using the project content to develop critical thinking,	04/09/2020	Experts, Schools, Students	Bulgaria	20

Partner	Activity description	Date of the event	Target Groups	Country	Number of people
	how the content can be used in language learning). For the Bulgarian legends and their connections with the legends of the other countries the BG team of the project demonstrated an example of a didactical activity. We chose one legend from each partner country, drew pictures of each legend, which were put on a board so that participants could see and access them, prepared cards with names of the main characters, challenges and main moral findings, which we scrambled and gave to participants to put under each drawing and guess the legend. After they did that we asked the to discuss similar main characters, challenges and moral findings from Bulgarian legends they knew (the video attached in the pictures' folder shows how Ms. Ina Petkova from ZAT's team reads the legends). The idea of that reading was that it also includes suggestopedia approach to teaching – how students can learn important information subconsciously remembering it if the text is read in certain way). We also asked teachers to give us their feedback after the closing of the event. At the end of the event we also showed how Parsifal map works and how the app is planned to work. Actual testing of the app was envisaged for next events.				
IIS Montale-Nuovo IPC	During the meeting at Montale for the Erasmus+ project SupErInt (2019-IT01-KA102-007147) Prof.ssa Rossella Risso introduced the Parsifal project to the partners	07/11/2019	Experts, Researchers	Italy	10

	their visit to the former capital of Poland with a walk to Wawel. There, together with a guide, the students visited the courtyard of the Wawel Castle. Tales of the Renaissance, customs, culture and science, and the life of the royal court blended into the background of the legend of Twardowski. The presence and role of magicians at the royal court was presented as one of the threads in the life of the legendary alchemist Piotr Twardowski in the story of the unhappy love of Zygmunt August and Barbara Radziwiłłówna. Next, the students went for a walk to the Market Square and the St. Jan Kapistrano at the corner of 26 Rynek Główny and 2 Wiślna Street - the probable place of residence of Piotr Twardowski. The next item on the agenda was visiting the Museum of Illusions. There, for a long time (too short for some), you could play the role of a Renaissance alchemist! The students - the program logo and its concept - were also introduced to other visitors! And finally - dinner at the restaurant at Hawelek, where you could admire the wall paintings of Włodzimierz Tetmajer, depicting the legend of Twardowski. Students were telling the guides about their participation in the project and the new things they found out so far.				
CZKiU	On October 13, students of the 3rd grade at Technical College No. 6 took part in the first day of the campaign on online presence, cyber attacks and virtual reality. The lecturer Bożena Fulas did not fail to familiarize students with the Parsifal project. It was the first time for the students to see the school's activities in this area and listened to the teacher's report with interest. 16 people were present at the classes.	13/10/2020	Universities	Poland	16
CZKiU	In September, 2nd grade students took part in the Days of the Sea promoted by the Board of Education. The event is addressed to lower school students. Thanks to it junior schools could get to know the activities of the Parsifal project. Groups (about 60 people) responded positively to the already-completed project activities and expressed their willingness to participate in a similar project.	13/09/2020	Enterprises, Experts, Students, Universities	Poland	80
CZKiU	Meeting with parents of class 2G at Technical School No. 6 On October 23, a meeting with parents was held, during which the assumptions of the Parsifal project were presented. The idea	23/10/2020	Training Agencies	Poland	29

## OUTCOMES OF THE DISSEMINATION ACTIVITY

The dissemination activity resulted in the organization of 296 separate events presented to 11 different typologies of target groups. The amount of people reached for each event depends on the type of event considered. It goes from 1 to 20 people for what concerns meetings and training seminars, up to several hundreds or thousands when considering conferences or publications on magazines and websites.

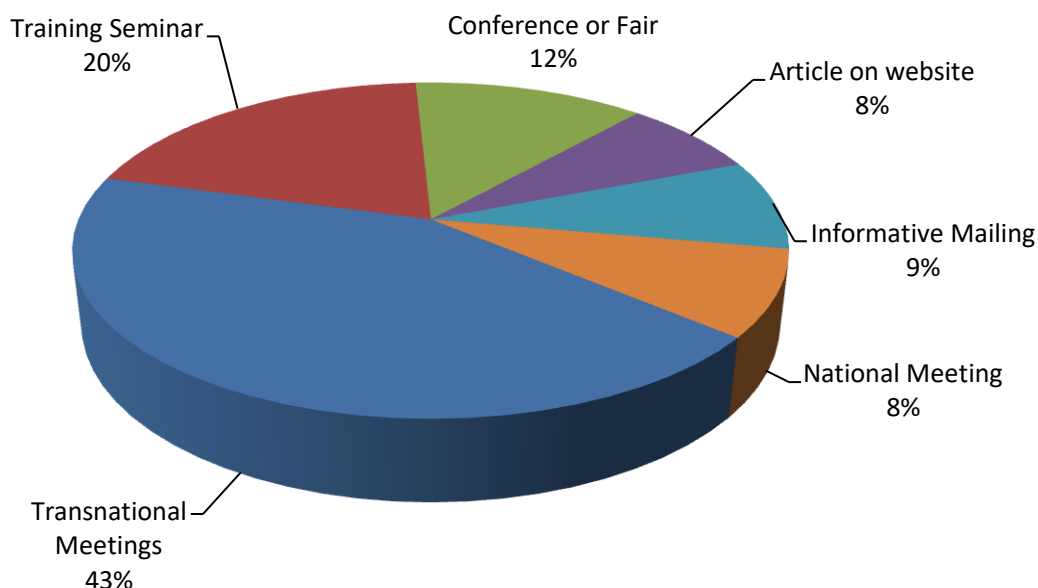

A total of more than 15 000 individuals are estimated to have been informed about the Parsifal project achievements.

The graph below provides the quantitative reference of the people informed through the different mean of communication used.

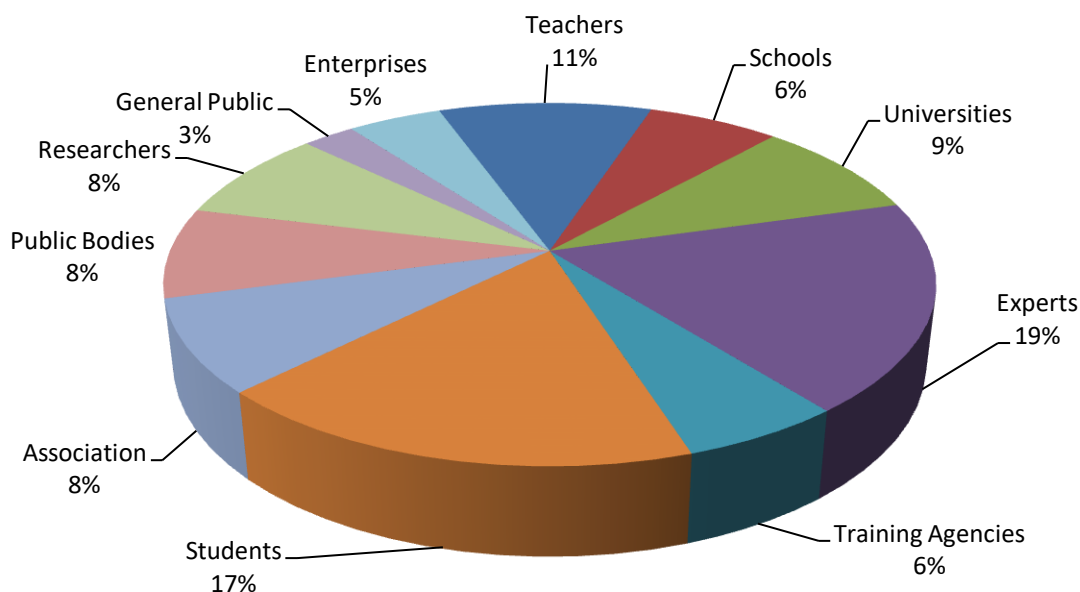

The 296 different dissemination events organized are: Transnational Meetings (43%), Training Seminar (20%), Conference or Fair (12%), Articles on website (8%), Informative Mailing (9%), National Meeting (8%).

## Dissemination Events Typologies

The groups contacted by the dissemination events carried out are: Schools (6%), Teachers (11%), Universities (9%), Training Agencies (6%), Experts (19%), Public Bodies (8%), Researchers (8%), General Public (3%), Associations (8%), Students (17%), Enterprises (5%).

## Target Groups Typologies

## EVALUATION OF DISSEMINATION

The dissemination activities carried out are estimated as satisfactory. A large number of representatives of the target groups were reached. Several contacts were made as a consequence of the dissemination events organized.

The project partners made direct contacts with European media and websites specialized in education and cultural integration. As a result of this activity, 38 articles about the project were published reporting the project's results and 38 direct links to Parsifal portal were made available. The list of web sites that made direct links to the Parsifal portal is available at <https://parsifal.pixel-online.org/press-reviews.php>.

The dissemination actions carried out were registered by the project partners on the specific form which was published on the project website. Please see <https://parsifal.pixel-online.org/dissemination.php>

Therefore all partners were able to access the information about the dissemination events organized by the others and draw ideas from them. The project's partners could, therefore, learn from each other, sharing dissemination practices according to their impact and effectiveness.

The dissemination activities carried out are estimated very satisfactory. A large number of representatives of the target groups were reached. A key point about the advantages of the transnational dimension of the project and the good number of partners and countries involved is the capacity of the project to reach a significant number of direct target groups. Indeed all the dissemination events have captured a lot of attention, giving visibility both to the Parsifal project and to its international spirit. The total amount of people reached through these different events is considerable and consistent with the typology of people that the team consider being its target groups. Furthermore, the typology of events was wide; indeed the events have been both national and international and have been focused on different topics relevant for the project, such as integration, social inclusion, prevention of early school leaving, strengthening of teachers competences.
